ABOUT ME

Entry-level Flutter Developer with strong foundation in Dart, mobile UI development, and REST API integration. Experienced in building mobile applications and academic projects using Flutter, Python, OpenCV, and Firebase. Seeking a Flutter Developer Internship or Junior Developer role to apply skills in real-world applications.

EDUCATION

- B.C.A – Computer Applications
Manonmaniam Sundaranar University (2022 – 2025)
 - M.C.A – Computer Applications
Manonmaniam Sundaranar University
(2025 – 2027)
 - Higher Secondary Education
Little Flower Matriculation School (2022)
-

PROJECTS AND WORKS

Face Recognition Attendance System (Python)

Developed a real-time face recognition-based attendance system as part of an academic project using Python, OpenCV, and NumPy. The system captures live video input, detects faces, and recognizes registered users to automatically mark attendance.

House Rental Management System (HTML, CSS)

Designed and developed a House Rental Management System to streamline rental operations for landlords and tenants. The system manages property listings, tenant information, and rental records through a centralized digital platform.

VoteX – Flutter Mobile Application(Flutter,Dart)

Developed a mobile voting application using Flutter that allows users to authenticate, participate in elections, and cast votes through a clean and responsive interface. Focused on UI design, navigation flow, and form validation, demonstrating hands-on experience with Flutter and Dart.

SKILLS

- Flutter
- Python
- UI/UX Design (Figma)
- OpenCV & NumPy
- Team Collaboration
- Problem Solving
- Quick Learner
- Time Management
